

## BUTLER FAVORS REPEAL EIGHTEENTH AMENDMENT AND VOLSTEAD LAW ALSO

By Associated Press.  
New York, Feb. 10.—Dr. Nicholas Murray Butler, president of Columbia University, and Senator William E. Borah of Idaho, differing sharply on prohibition, today were in agreement to present the issue as they see it to the voters in advance of the national nominating conventions of next year.

"I have done whatever my time and strength have permitted to keep this issue before the people in all parts of the United States," the educator wrote. "So far as time and strength and the heavy pressure of personal and professional duties will permit, I shall certainly continue this course of action during the months that lie before us."

"I am prepared at any convenient time to confer with you or any other of our (Republican) party associates as to how best and most effectively to accomplish the end that we both have in mind."

"You ask me two main questions. These are my answers."

"I am in favor, specifically and definitely, of the repeal both of the 18th amendment and of the Volstead act. It would make me very glad to have the Republican party, to which I have given such service as I am capable since early manhood, take that position."

"To your second question I answer that I should not oppose the Republican party pledging itself specifically to the upholding of and enforcement of the eighteenth amendment so long as that amendment remains a part of the constitution, provided that the declaration be so drawn as to make it plain that this enforcement of the eighteenth amendment is always and everywhere to be accompanied by the like enforcement of the other provisions of the constitution, including particularly those contained in the first ten amendments, which constitute the bill of rights."

The correspondence between Senator Borah and Dr. Butler followed a speech by the latter here Monday in which he asserted that in his opinion President Coolidge would not run for re-election and declared no one but an avowed wet would have a chance of election to the presidency in 1928 on either ticket.

### TODAY IN WASHINGTON

By Associated Press.  
Congress meets at noon.  
Farm relief debate faces both Houses.  
Elections Committee again meets on Smith case.  
House Judiciary Committee continues Cooper impeachment hearing.  
Tax appeals board hears further testimony in Ford tax recovery.

## AL SMITH DOES NOT WORRY OVER ACTION TEXANS

By Associated Press.  
Albany, N. Y., Feb. 10.—Governor Smith apparently does not take very seriously the action of the Lower House of the Texas Legislature in voting an invitation to William Gibbs McAdoo, Governor Ritchie of Maryland, and Senator James A. Reed of Missouri, to address that body.

"I read the item in the paper this morning," the Governor said today, "and I referred it to the Boxing Commission."

He made no further comment.

In view of the fact that Governor Smith has declined all invitation to speak outside the State, it is generally assumed here that he will not appear before the Lone Star lawmakers.

## SPECIAL MESSAGE TO CONGRESS GIVES OUTLINE OF NEEDS

By Associated Press.  
Washington, Feb. 10.—President Coolidge has suggested to the powers that they empower their delegates to the Geneva preparatory commission for disarmament "to negotiate and conclude at an early date an agreement further limiting naval armament."

The suggestion went to Great Britain, France, Italy and Japan, and was announced to the world today by President Coolidge in a special message to Congress.

The proposal is that an agreement be made supplementing the naval limitation treaty of Washington, "and covering the classes of vessels not covered by treaty."

The text of the note to the powers was included in the message to Congress. It said in part:

"Although hesitating at this time to put forward rigid proposals as regards the ratios of naval strength to be maintained by the different powers, the American government, for its part, is disposed to accept, in regard to these classes of vessels not covered by the Washington treaty, an extension of the 5-5-3 ratios as regards the United States, Great Britain and Japan, and to leave to discussion at Geneva the ratios of France and Italy, taking into full account their special conditions and requirements in regard to types of vessels in question."

"Ratios for capital ships and air craft carriers were established by that treaty which would not be affected in any way by the agreement covering other classes of ships."

Full Powers Given Delegates.

The President said the American delegates at Geneva would have "full powers to negotiate definitely regarding measures for further naval limitation, and if they are able to reach an agreement with the representatives of the other signatories of the Washington treaty to conclude a convention embodying such agreement, in tentative or final form as may be found practicable."

The American government, and people, the President said, "are convinced that competitive armament constitutes one of the most dangerous contributing causes of international suspicion and discord, and are calculated eventually to lead to war."

Despite the hope of the United States to complete the work of the Washington treaty and extend limiting treaties to cover cruisers, destroyers and submarines, the message continued, "far-reaching building programs have been laid down by certain powers, and there has appeared in our own country, as well as abroad, a sentiment urging naval construction on the ground that such construction is taking place elsewhere."

"Actually, I do not believe that competitive building of these classes of ships has begun," the president said.

He added, however, that in such sentiments as he had referred to "lies the germ of renewed naval competition."

British Refuse to Comment.

By Associated Press.  
London, Feb. 10.—President Coolidge's suggestion that the delegates to the preparatory disarmament conference be empowered to negotiate an agreement for further limitation of naval armaments was delivered to the British Foreign Office today by the American Ambassador, Alanson B. Houghton. Officials declined to comment before studying the document.

New Cabinet for Chile.

By Associated Press.  
Santiago, Chile, Feb. 10.—Less than 24 hours after his declaration that Chile needed a stronger government to counteract the spread of Bolshevism, General Carlos Ibanez has been installed as the head of a new cabinet and his ministers sworn in.

## LOVE CONTINUES TO PUSH FERGUSON AMNESTY MEASURE

By Associated Press.  
Austin, Texas, Feb. 10.—Efforts to "force action" which would deprive former Governor James E. Ferguson of the amnesty granted him by the last Legislature failed again today in the Senate, but the way was paved, apparently, for action on the measure tomorrow.

Senator Love of Dallas, author of the measure, sought to have it made special order of business after the call tomorrow and Senator Fairchild of Lubbock moved to table the motion.

Fairchild's motion lost 24 to 3, but the Senate then adopted a special report of the joint rules committee providing that joint resolutions shall have right of way on the calendar, if they deal with constitutional amendments. The amnesty bill is now at the top of the section of the calendar devoted to Senate bills and will come up as soon as joint resolutions are disposed of, provided no Senate bill is made special order of business today.

Senator Love withdrew his motion to make the amnesty bill special order of business, but served notice that he would oppose any move to make any other special order for tomorrow.

## Educational Bill Refused Consideration

By Associated Press.  
Austin, Texas, Feb. 10.—The House today refused to consider one of the educational measures recommended by the educational survey committee whose work cost the State \$50,000.

Consideration also was refused a bill that would have placed cotton gins under regulation of the Railroad Commission as public utilities.

The educational measure sought appointment of county superintendents by county boards of education instead of popular election. Representative Roy Daniels of Wichita Falls introduced the bill as a compromise for the educational survey committee bill. Both have the same main feature.

It was reported adversely by the House Committee on Education and Daniels and Representative Polk Hornaday lost a hard fight to get the bill printed and put before the House on a minority report. The House first voted down Daniels' motion to print and then defeated Hornaday's move to reconsider the vote. A similar bill in the Senate has been reported favorably.

Representatives Bowen Pope of Hamlin and Grady Woodruff of Paradise lost a fight to get the bill printed on a minority report. Pope declared he had a long petition from farmers asking that the bill be passed and exhibited letters from ginners favoring it.

Representative E. S. Cummings of Abilene, chairman of the committee which reported the bill adversely, 12 to 2, declared that "if we are going to put everything under the Railroad Commission, we might as well start with the country store."

## Another Bill to Limit Pardon Power

By Associated Press.  
Austin, Texas, Feb. 10.—A joint resolution by Representative Bowen Pope of Hamlin seeking to distribute the pardoning power between the governor, attorney general and Chief Justice of the Supreme Court, was reported favorably today by the House committee on constitutional amendments.

Pope's resolution was amended so that any two of the three officials named can pass on a pardon application, after it has been approved by the Pardon Board. The House calendar is far behind and it

## KILLER OF 18 MEN HELD MERE CHARGE FORGERY THURSDAY

By Associated Press.  
Little Rock, Ark., Feb. 10.—A record of having killed 18 men was credited today by Oklahoma City officers to J. M. Saunders, arrested here a few days ago in connection with an effort to dispose of \$23,000 worth of liberty bonds when they arrived to return him to Oklahoma. He is wanted there on charges of forgery.

Saunders formerly was connected with the Oklahoma Bankers Association as an officer, it was said.

The checked career of Saunders was well known to Oklahoma City officials. He has stood trial nine times for his killings, the officers said, but has spent little time in prison for his criminal operations.

Saunders claims the bonds were obtained legally from an Oklahoma banker for a deed to property on which oil later was discovered.

## UNITED STATES IS AGAIN TAKING FIRM STAND AGAINST WAR

By Associated Press.  
Washington, Feb. 10.—Once more the United States has undertaken to lead the world toward a scaling down of naval armaments.

In a note to Great Britain, France, Italy and Japan, President Coolidge has suggested that treaties to that end be negotiated without delay at the Geneva conference.

The proposal would extend downward to smaller warships the limitations imposed at first class naval craft. The same proposal was made by the United States at the Washington conference, but failed of acceptance.

In a special message to Congress announcing what he had done Mr. Coolidge declared that despite the principles laid down at the conference here in 1921, "certain

powers" have laid down far reaching naval building programs suggesting the shadow of another world-wide race among nations to outbuild one another.

He suggested also that the Geneva discussions initiated by the League of Nations, are threatened with deadlock if the powers proceed along their present lines of negotiation.

Land and Air Excluded.

So far as land and air armaments are concerned, the President evidenced a willingness to let foreign powers work out an agreement of their own.

The land and air forces of the United States, he said, are at a minimum and "constitute a threat to no one."

The message fell upon Congress without warning, in the midst of a controversy over construction of three new cruisers. Overriding the President's recommendations, the Senate has voted to authorize this construction and the House, although it once has rejected the proposal, appears somewhat disposed to accept the Senate viewpoint, in conference.

Some of the most influential

leaders of the President's own party, including Speaker Longworth, have thrown their support behind the building plan.

Should Mr. Coolidge's suggestion be accepted by the powers, and treaties negotiated to carry it into effect, cruisers would be one of the classes of ships directly affected by any limitation agreed upon.

Message Read to Congress.

Sent to the capital by messenger the special message was read in the Senate and House early in today's session, but the possible effect on the three cruiser plan was not immediately apparent.

Great secrecy had been observed in preparation and transmission of the American note to the powers. Apparently but a very small handful of Senators or Representatives had any inkling of the move until the message reached the capitol, and some members of the Cabinet expressed surprise when they heard of it. Arrangements had been made, however, for publication of the note through the American Embassies abroad simultaneously with delivery of the President's message to Congress.

## ONE MINER DEAD, TWO ENTOMBED AS RESULT EXPLOSION

By Associated Press.  
Pottsville, Pa., Feb. 10.—One man is known to be dead, two others entombed and two seriously burned in an explosion of gas at the Phoenix Park Colliery of the Philadelphia and Reading Coal and Iron Company today.

The body of Stinney Sedlick of Minersville, was recovered and rescue gangs were working in an effort to reach those entombed. It is said, however, there is little likelihood of their being rescued alive.

Assignment.

Alexander and Lyles, Inc. to Magdolna Petroleum Company 14.44 acres of the William Bartels survey, \$10 and other consideration.

### "BUILD MORE AND GREATER HIGHWAYS"

In the annual highway review  
 number of the Manufacturers Record  
 under the heading of "Build  
 More and Greater Highways" the fol-  
 lowing editorial appeared on page  
 one:

"With over 22,000,000 automobiles  
 and motortrucks operating in this  
 country, representing an annual ex-  
 penditure for purchase and main-  
 tenance of over \$15,000,000,000, and  
 with the certainty that automobile  
 traffic and motorbus transporta-  
 tion will continue to increase to an  
 indefinite extent, the need of more  
 and broader and more substantial  
 highways is becoming every day  
 more apparent.

"Highways built five or ten years  
 ago are in many cases wholly in-  
 adequate to the needs of the pres-  
 ent. Few people then realized the  
 number of automobiles for pleas-  
 ure and for business that would be  
 in use by this time, and probably  
 none realize how many motor buses  
 and motortrucks will be running  
 at high speed and carrying heavy  
 loads.

"None but the most substantial  
 highways can possibly stand the  
 pounding of these enormous motor-  
 trucks and motorbuses at the pres-  
 ent time, and their use is expand-  
 ing with remarkable rapidity. New  
 motorbus lines are being estab-  
 lished almost daily. Motor trucks  
 are carrying more and more freight  
 on long hauls as well as on short  
 ones.

"At the same time the railroads  
 are crowded to the limit of their  
 capacity with existing facilities,  
 and it will take all the ingenuity  
 and all the capital that can be se-  
 cured by railroad managers to in-  
 crease railroad facilities to a suf-  
 ficient extent to handle the grow-  
 ing railroad traffic of the country.  
 Without the motorbus, the motor-  
 truck and the automobile the rail-  
 roads would be hopelessly  
 swamped, broken down physically,  
 and that would soon mean broken  
 down financially.

"However great the cost may be  
 of building improved highways wide  
 enough to meet increasing traffic,  
 solid enough to stand the wear and  
 tear of heavy trucks and buses,  
 this country must go ahead with  
 the work on a larger scale than we  
 have yet had. Instead of \$1,000,-  
 000,000 a year being spent for high-  
 way construction, the amount must  
 be doubled, and that right soon. If  
 we can spend more than \$15,000,-  
 000,000 a year to purchase and  
 maintain automobiles and motor-  
 trucks, we can certainly spend \$2,-  
 000,000,000 a year to provide the  
 highways over which they are to  
 run.

"Here and there is to be found an  
 engineer broad enough in his views  
 to realize the supreme necessity of  
 more highways, broader highways,  
 firmer highways and special high-  
 ways constructed between impor-  
 tant cities for high-speed automob-  
 iles and motorbuses and motor-  
 trucks. The people at large, how-  
 ever, do not seem to have fully  
 realized this. Many of the acci-  
 dents are due to overcrowding of  
 the present highways. In 1925  
 deaths from accidents in which  
 motor vehicles were involved  
 reached the appalling total of  
 26,827. The cost in life is too great.  
 This frightful toll must be less-  
 ened.

"Public officials who fail to recog-  
 nize the importance of this situ-  
 ation and, therefore, do not press  
 with sufficient eagerness for the  
 building of new highways, will to  
 some moral extent at least be re-  
 sponsible for many of the deaths  
 and accidents which now occur on  
 overcrowded highways."

### TEXAS

The Texas State Manufacturing  
 Association with headquarters in  
 San Antonio is a very active or-

ganization and is doing much in  
 advertising the State. The slogan  
 of the Association is "What Texas  
 Makes—Makes Texas."

The Association has collected  
 much interesting data concerning  
 "Texas—The Billion Dollar Manu-  
 facturing State" and these facts  
 and figures should be of interest  
 to people living in Texas as well  
 as those in other sections of the  
 country.

The "Spotlight on Texas" shows  
 that Texas is an empire with an  
 area of 265,896 square miles with  
 a population of over 5,300,000. It  
 is the fastest growing state in the  
 South—the State of opportunities  
 and a billion dollar agricultural  
 state. The trade territory popu-  
 lation is placed at 30,000,000.

Texas is the gateway to Mexico  
 and Latin America with a 500 mile  
 frontage on the Gulf of Mexico  
 having many great deep water  
 ports and is a direct route to the  
 Panama Canal. Texas' exports are  
 three times greater than the Pa-  
 cific coast. There are 16,000 miles  
 of railroads in Texas and the bank  
 deposits are \$900,000,000. The min-  
 eral production is placed at \$500,-  
 000,000. Texas leads the world in  
 petroleum refining and is one of  
 the leading oil producing states.  
 Texas also leads the world in sul-  
 phur production and has great  
 natural gas fields.

Texas has 60,000 square miles of  
 lignite and is destined to supply  
 the nation's potash. Texas has  
 cheap fuel and power and indus-  
 tries operate every week day.  
 Texas has American born labor  
 and is free of labor strife. The  
 4,000 manufacturing industries in  
 the state represent an investment  
 of \$800,000,000 and Texas invites  
 new and needed industries. Texas  
 leads the South in manufacturing  
 and is rich in raw materials. Texas  
 has a high citizenship and is a state  
 of schools, colleges and churches.  
 Texas boasts any kind of climate  
 desired and the altitude, sea level  
 to mountains is 9,000 feet. Texas  
 has the finest pure water in the  
 world and is a great state in which  
 to live. It is developing into a  
 great citrus growing state and  
 leads in paved highways. Texas  
 has over 1,000,000 automobiles.

Livestock in Texas is divided as  
 follows: 6,275,000 cattle; 980,000  
 horses; 1,540,000 hogs; 854,000  
 mules; 3,246,000 sheep; 2,044,000  
 goats.

Texas citizens live at home—buy  
 at home and give preference to  
 Texas products.

An unlimited amount of devel-  
 opment will be under way in Texas  
 in the next few years and every  
 city and community in the state  
 should do their share toward in-  
 teresting foreign capital. The  
 first thing Navarro county should  
 do is to build a system of hard sur-  
 faced highways. Progress in this  
 county is greatly handicapped by  
 the ball and chain of impassable  
 roads many months out of the year.  
 Further delay in voting good roads  
 bonds is costing the tax payers  
 many thousands of dollars each  
 year.

### NATIVE SON BOOSTERS.

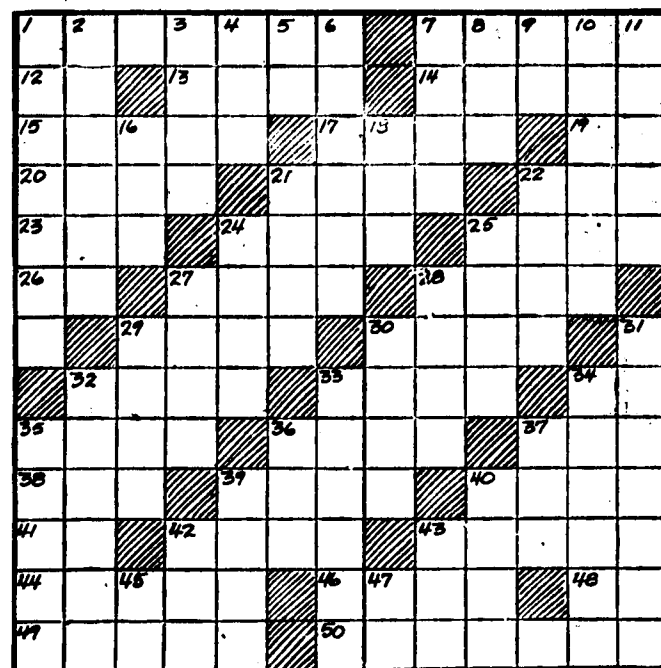

If Florida and California did not  
 actually conceive the idea of state  
 and municipal publicity bureaus  
 they at least were the first to make  
 practical use of it. Even state New  
 England is considering an interna-  
 tional campaign to advertise its  
 seven and seven hundred wonders,  
 and in New York State, which al-  
 ways has considered itself most  
 cosmopolitan, there is a legislative  
 demand for booster propaganda.

This publicity bug does not seem  
 to have bitten certain other sec-  
 tions of this country and some for-  
 eign countries. Mussolini has the  
 disease in its most virulent form  
 and Germany showed marked  
 symptoms of it before the war in  
 her attempts to scatter the seeds  
 of her Kultur around the world.  
 But, on the face of things, it seems  
 Turkey is still immune.

Europeans and Americans visit  
 the land of the fiery crescent to  
 see, among other things, such signs  
 above the bazaar stalls as "Hadji  
 Hussein, the bearded one, native of  
 Denizli, seller of sweets sweeter  
 than the fruits of paradise, sweeter  
 than the lips of Circassian slaves."  
 And yet, though stoppage of tour-  
 ist traffic means bankruptcy for  
 many of its people, the Turkish  
 government issues an edict short-  
 ening the sign to "Hadji Hussein's  
 candy shop." Here is one case  
 where there is grievous need for a  
 government publicity bureau.

But the Turks are not alone  
 lacking in this fifth sense of the  
 born press agent. The motorist  
 touring the South in search of that  
 famous "southern cooking" finds  
 above the hotel desk a placard an-  
 nouncing "real northern cooking."  
 And the southerner seeking culi-  
 nary change sits down in New York  
 to a dinner of "real Virginia ham"  
 or chicken and biscuits Maryland  
 style.

## BISHOP SAM R. HAY HERE FOR FUNERAL OF MRS. WM. CLARKSON

Bishop Sam R. Hay was in Cor-  
 sicana Monday in attendance upon  
 the funeral of his sister-in-law,  
 Mrs. Wm. Clarkson, Sr., and went  
 to Dallas Monday evening where  
 he addressed a meeting of Metho-  
 dists at a banquet at the Baker Ho-

tel on the matter of financing the  
 new Methodist Sanitarium now  
 nearing completion in Dallas. He  
 returned to Houston Tuesday, be-  
 ing joined here by his wife, for-  
 merly Miss Tillie Gulick of this  
 city and a sister of Mrs. Clarkson.  
 At the funeral of Mrs. Clarkson  
 Monday Bishop Hay offered a pray-  
 er that was especially appreciated  
 by family and friends of Mrs. Clark-  
 son for its appropriateness and es-  
 pecial application to the life of this  
 good woman who had passed to her  
 reward.

Read the Sun—get all the news.

The other day we unloaded what was probably the larg-  
 est carload of wire that was ever brought to Corsicana.

Included in this shipment was wire for building chicken  
 houses, hog pens and fencing in cattle and gardens. In  
 fact, we now have wire suitable for every purpose.

On account of the enormous quantity bought, direct from  
 the manufacturer, we can sell this wire at very low prices.

 House  
 Beaton at Third

## MANY IOWA FARMERS COMING TO TEXAS IN THE PAST FEW MONTHS

By Associated Press:

San Antonio, Texas, Feb. 8.—  
 The frequently repeated statement  
 that most of the people in Califor-  
 nia are former Iowa farmers may  
 someday be true of Texas if the  
 proportions of Iowa tourists con-  
 tinues to run as high as it has this  
 winter.

Iowa and Illinois are far in the  
 lead, according to figures compiled  
 by the Tourist's club here. The  
 two states have been at the head  
 of the column since early in the  
 winter, first one and then another  
 taking the lead.

Tourists here have been organ-  
 ized into a club by the Conopus  
 club, a civic organization which  
 furnishes a large clubhouse free of  
 charge, equipped with almost un-  
 limited space for entertainment.  
 As many as 21 tables of bridge or  
 500 are frequently played at once  
 while outside horseshoe pitchers  
 and croquet players enjoy the sun-  
 shine.

Some of the tourists are families  
 of people who are ordinarily sta-  
 tionary the year round and who are  
 taking their first fling at a winter  
 resort, but many of them are the  
 chronic winter resorters who are  
 trying Texas after spending winters  
 in Florida, Bermuda, California, or  
 Cuba. Many of them are elderly  
 people who come south merely to  
 sit in the sunshine all day long and  
 swap yarns with similar resorters  
 from other parts of the globe.

Eventually the Conopus club  
 hopes to build a large playground  
 and clubhouse to house its tourist  
 activities. The plan is to make  
 the plant similar to the club house  
 and playgrounds which the Lions  
 club has built for the children. This  
 will include a field large enough  
 for almost any game but golf and  
 will include a commodious club  
 house, tennis courts, croquet and  
 horseshoe pitching courts, racquet  
 courts, archery ranges, enough  
 space for the golfer to practice his  
 shots and possibly a large swim-  
 ming pool.

### Think Well

Before turning your money into  
 a channel removed from your home

 to \$4 per week. Good cool outside  
 rooms, nicely furnished and well cared  
 for. Also 2 and 3 room furnished apart-  
 ments \$5 to \$8 per week. Gas, water,  
 lights, bath and phone service included.  
 601 S. 7th St. Phone 1653-W.

**PICTURE IS DRAWN  
OF CABINET MEMBER  
STOOPING TO GRAFT**

By Associated Press.  
 New York, Feb. 8.—A picture of  
 Harry M. Daugherty as an attorney  
 general who stooped to graft  
 while sworn to enforce the law,  
 was sketched today by United  
 States Attorney Emory R. Buckner  
 in his opening address at the trial  
 of Daugherty and Thomas W. Mil-  
 ler, former alien property custo-  
 dian.

"We will show you," Buckner  
 said, "that Jess W. Smith, who lat-  
 ter committed suicide in Daugh-  
 erty's Washington home, was his  
 agent in the transfer of \$7,000,000  
 of the assets of the American Met-  
 al Company to Richard Merton, a  
 German, who came over here and  
 negotiated with John T. King, one-  
 time Republican National Commit-  
 teeman from Connecticut, who  
 died last June, for the return of  
 that enemy-owned property.

"We will show it, not by Mer-  
 ton's testimony, for he will tell  
 you he paid money only to King  
 and talked only to King and Smith  
 and Miller, but by tracing some of  
 the \$391,000 of Liberty bonds, the  
 very ones Merton gave to King,  
 to the bank of Daugherty's brother,  
 Mal S. Daugherty, in Washington  
 Courthouse, Ohio."

Buckner's opening was punctuated  
 with interruptions by defense  
 attorneys.

"Corsicana Has It."

## The Place to Buy Your Feeds

When you want anything in the feed or seed  
 line give us your order. We carry a full line  
 of all kind of feeds, and buy them direct from  
 the mills and can save you money on your  
 monthly feed bills. We carry the famous line  
 of Purina Chows for your Cows, Horses,  
 Hogs, Chickens and Pigeons. We have several  
 hundred people feeding Purina now. If you  
 want to lower the cost of production start on  
 them today.

Our stock of seeds and plants can supply your  
 needs for planting time. Look for the Check-  
 erboard Front.

## N. F. Garrett and Bro. No. 2

The Home of Purina Chows—216 N. Com. St.

## Hatchery

We have our Hatchery running now and would  
 be glad to hatch your eggs for you. We will  
 set every Monday; will charge \$3.50 for tray  
 of 112 eggs, you furnish the eggs. If you do  
 not have the eggs, we have Barred Rocks,  
 Rhode Island Reds, Silver Lace Wyandottes  
 and White Leghorns from flocks that have  
 egg records over two hundred eggs. We will  
 be glad to sell you baby chickens from above  
 or sell you the eggs and hatch them for you.  
 Come by and let us show you our machine and  
 thorough bred stock. Will be glad to talk to  
 you if not interested in raising more and bet-  
 ter poultry, would do you no harm anyway.  
 We are loading two car hens this week and for  
 good stock will pay 17c this week only.

## A. B. Walker & Son

We have these  
 tanks in stock.

## MANTELL AND PLAYERS TO BE HERE

## DR. A. C. SCOTT OF TEMPLE SPOKE LAST NIGHT TO MEDICOS

Dr. A. C. Scott, Sr., of Temple was the principal speaker at the regular monthly meeting of the Navarro County Medical Society at the headquarters of the Corsicana Chamber of Commerce Monday night. The subject of the paper presented was "High Mortality in Malignancies and Its Reduction." Dr. Harry Ezell of Corsicana was on the program for a paper on "Oral Hygiene" but deferred his paper until the next meeting of the organization.

At the conclusion of the presentation of the paper by Dr. Scott, a notable discussion was held. Medical fees were approved by the society. The secretary reported a series of communications from Dr. Homan Taylor, secretary of the Texas Medical Society, and local representatives in the Legislature regarding the proposed legislation. The society expressed its opposition to the proposed medical bill.

Those present included Dr. S. C. Hammett, Dr. A. C. McMillen, Dr. W. T. Egan, Dr. A. Miller, Dr. W. Carter, Dr. A. Jones, Dr. Hamilton, Dr. Eureka, H. B. Jester, B. F. Houston, H. H. Panton, R. C. Cuyler, E. P. Norwood, Dan B. Hamill, W. D. Cross, W. W. Halbert, T. P. McLendon, E. H. Newton, J. E. Mc-

## SUN CLEARING ALL TRACES OF RECENT SNOW NORTH TEXAS

A bright sun Thursday was rapidly clearing all traces of the snow which accumulated the severe cold wave of Tuesday night and Wednesday in Northwest Texas and Oklahoma.

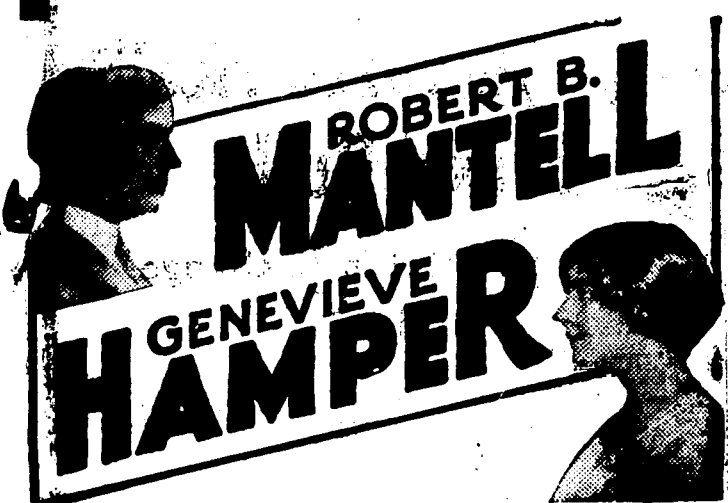

The mercury here was rising from a low point of 22 degrees reached Wednesday night. The biting north wind had subsided.

## IS THERE NO RELIEF FROM SKIN TORTURE?

Must I Continue to Suffer from Unbearable Itching?  
Are you one of those unfortunate ones who are going through life suffering with a skin disease, making you uncomfortable, making you inefficient, interfering with your working hours, ruining your sleep? You may have tried many things without success. Why not try S.S.S.? For more than 100 years it has been called in many forms of skin disease. Thousands of letters of gratitude prove its worth. If you feel so happy for what S.S.S. has done for me that I want others to know about it. I suffered twenty long years from eczema. At times the itching was unbearable. During the winter, when the skin was dry, it was worse. After taking six bottles of S.S.S., I was cured of this dreadful disease. I recommend S.S.S. to anyone suffering from eczema, because I cannot praise it enough for what it has done for me. "Clapham's Forts, Soldiers and Sailors Home, Quincy, Ill. S.S.S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building you up so that your system throws off the cause. S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

## LEGISLATORS HEARD ALL TESTIMONY READ IN ALLEGED BRIBERY

By Associated Press.  
Austin, Texas, Feb. 8.—Dale and Moore were attacked and defended respectively by Representative Ray Holder of Dallas and P. C. Sanders of Strawn when the House reconvened at 2 o'clock and took up first the question of whether Dale should be suspended.

Holder, who declared he was the only non-lawyer member of the investigating committee, said he believed Dale "lied, accepted a bribe and stole," and did "not intend to split the \$1,000 bribe with Moore" after getting it.

Holder expressed belief that Willis Chamberlin, Houston optometrist, the prosecuting witness, "told the truth" in quoting Dale as saying "Business is good in the Legislature."

"I believe Dale really thought it was all right to practice law in the Legislature the same as at home," Holder said.

Sanders said he would be guided by strict rules of evidence only, that he was against "convicting any man who shows reasonable doubt."

**Resume Reading Testimony**  
By the Associated Press.  
Austin, Texas, Feb. 8.—The House clerk at 9:07 o'clock this morning resumed the eight-hour job of reading the full testimony on which a House investigating committee based recommendations that Representatives F. A. Dale and H. H. Moore, be expelled for alleged bribery taking.

Two clerks read alternately for two hours and forty minutes at a special House session called last night after the House voted 67 to 58 to hear full reading of the record of the investigating committee's hearing. A half day of wrangling preceded the vote.

Last night's reading covered the testimony of Willis Chamberlin, Houston optometrist, that Dale offered for \$1,000 to get an unfavorable House committee report on Moore's bill proposing taxation of stationary optometrists, \$50 annually, and that Moore whom he first consulted about the measure, referred him to Dale.

The clerks also got through Ranger Captain Frank Hamer's testimony. Hamer told the investigating committee that he arrested Dale as the Representative received \$1,000 in marked bills from Chamberlin. Moore, he said, was arrested later in his hotel room, the scene shortly before, of a dinner conference between Chamberlin, Dale and Moore. Chamberlin had testified that final details of the purported bribe were worked out at the dinner.

**Delay Is Favored**  
Overriding the plea of Speaker R. L. Bobbitt for immediate action to "vindicate the name of good government and show the people of Texas that we are not a bunch of bribe-takers," the House late yesterday supported those favoring delay of various sorts.

Before Representative R. E. Mose's insistence on a full reading of testimony was sanctioned, proposals were made variously that Chamberlain be made a defendant, that the case be set for a special order several days hence, that the testimony be printed in the House Journal, and the members "be given a chance to see what it's all about" and sundry other motions.

The unanimous report of the committee carried recommendations that the "highest punishment of which the House is capable" be imposed on Dale and Moore.

As reading clerk Percy Foreman today plunged into the testimony of Ranger Captain Hickman, who helped Hamer make the arrests, several House members were absent. Some asked to be excused, and others read newspapers, or attended to correspondence.

A bitter fight is expected on the expulsion recommendation when reading of the record is completed, probably late this afternoon. The committee amendment to its report allowing the cases of Dale and Moore to be considered separately, is considered significant and may change the course of action. Some members have indicated that they may consider technicalities of evidence and vote two different ways in the two cases.

After five hours and forty minutes the two clerks at noon today finished reading the entire transcript of testimony, and the House recessed until 2 o'clock without action.

Stormy scenes are admittedly in prospect before final decision is reached.

Speaker Bobbitt has received an opinion from the Attorney General's Department that two-thirds of a House quorum will be necessary to expel either or both the accused.

**By Associated Press.**  
Austin, Texas, Feb. 8.—The Dale-Moore bribery hearing has thrown a monkey wrench into the legislative machinery of Texas.

Since the House last Thursday adopted a resolution calling for investigation of bribe taking charges against Representatives F. A. Dale and H. H. Moore, virtually nothing else has received much consideration by the House. As a result the calendar, already crowded, is badly piled.

## MANY VETERANS OF WORLD WAR BENEFIT BY BONUS LOANS

By the Associated Press.  
Washington, Feb. 8.—A half million former service men who hold government life insurance policies stand to benefit by final passage of the Green bonus loan bill although its primary purpose is to facilitate borrowing on adjusted compensation certificates.

Under the bill, interest profits made on the compensation certificate loans would go to a fund set up to retire the government's life insurance policies which, it is intended, will be reflected with lower insurance premiums through dividend declarations.

The Green bill authorizes the Veterans Bureau to make loans on bonus certificates at two per cent interest in excess of the current Federal Reserve discount rate which means that the normal rate to loan seekers would be approximately 6 per cent.

In order to make these loans, the treasury would advance \$25,000,000 to the Veterans' Bureau, the Bureau giving as security an equal amount of bonds it holds to redeem insurance converted from war risk policies. The Treasury would be authorized to charge the Veterans' Bureau four per cent interest.

**Profit of Two Per Cent**  
In as much as the Bureau would receive six per cent on loans and pay only four per cent to the Treasury, a two per cent profit would accrue which would be turned into the government life insurance fund.

The securities held in the fund are to retire policies at death or at term expiration. Whatever profit is made by them (at present it is 4.6 per cent) reflects into premiums to policy holders by virtue of dividend declarations.

The greatest benefits would result to policy holders in the event certificate loans were not repaid. John Thomas Taylor of the American Legion, estimates that 1,000,000 service men will not repay their loans, permitting them to remain as a compound interest-bearing charges against their certificates, the face value of the loan plus eighteen years compound interest to be deducted at maturity of the certificates.

Although it desired lower interest rates, the Legion is not opposed to the Green bill and is expected to support it when it comes up in the Senate shortly.

**Repeal Part Immigration Law.**  
By Associated Press.  
Washington, Feb. 8.—Repeal of the national origin provision of the immigration law was approved today by the House Immigration committee.

The committee ordered reported a Senate resolution to defer for one year the placing in effect of the provision, together with an amendment proposing its outright repeal.

The amendment would leave regulation of immigration upon the existing quota basis.

Under the provision which the committee proposes to repeal, the quotas of admissible aliens would be based on a percentage of the total number of immigrants who entered the United States between 1820 and 1920. The existing quota arrangement fixes these percentages upon the number of each nationality resident in the United States in 1890.

**Want Oklahoman Named.**  
By Associated Press.  
Washington, Feb. 8.—Senators Harrell and Pine of Oklahoma today asked President Coolidge to appoint Ezra Brainerd of Muskogee, Oklahoma, as a member of the Interstate Commerce Commission.

**Lowden Favors Fee Plan.**  
By Associated Press.  
Washington, Feb. 8.—With Congress approaching its third showdown on the equalization fee plan of aiding agriculture, Frank O. Lowden of Illinois today added his active support to the equalization fee provisions of the McNary-Haugen bill.

**Seed Loan Bill Passed.**  
By Associated Press.  
Washington, Feb. 8.—The \$8,600,000 seed loan bill was passed today by the Senate with provision for cotton farmers as well as northwestern grain growers.

**To Vote on Farm Bill.**  
By Associated Press.  
Washington, Feb. 8.—The Senate today agreed to vote not later than 4 o'clock Friday on the McNary-Haugen farm relief bill.

**ed a legal separation last week.**  
The Fishers were married at sea aboard the Leviathan October 24, 1925, by Captain Hartley. They lived together only a few months the former countess sailing for Paris the following April, saying she would "never, never" return.

About two months later the separation suit was instituted. Mrs. Fisher charging the cartoonist beat her and threw her out of their fashionable apartment on Riverside Drive.

Fisher vainly attacked the validity of the marriage, citing an opinion by Judge Parker of the Shipping Board that commanders of perform ceremonies.

**Woman Held Incumcadero.**  
By Associated Press.  
Mexico City, Feb. 10.—The newspapers have learned that Senora Maria Olmedo de Urquiza, of a prominent family, was arrested a week ago and is being held incumcadero. The papers say she was arrested on the suspicion that she was connected with anti-government plots, although she has denied this.

## SPECIAL HATCHERY

We realize that some people that might want to hatch eggs would not have money to pay for same, or would want to use money for something else. If you will furnish your own eggs we will hatch same and for every twenty-five chickens you leave the hatchery with you can bring us four good average chickens from the hatch at the age of ten weeks to pay for hatching. We will furnish you baby chickens from our pure bred flocks of White Leghorns, Barred Rocks, Rhode Island Reds, Silver Laced Wyandottes and Black Minorcas and take back eight good average chickens out of every twenty-five you leave the Hatchery with at age ten weeks as pay for same. This will enable you to hatch your own eggs or get a start of good poultry without cash.

You must have good place to care for baby chickens before we would put out same to any one.

You can set your eggs every Monday and if you want to buy baby chickens from us you can get them any time after Tuesday.

**A. B. Walker & Son.**

## YOUR CHOICE

Which would you buy if you had five or six hundred dollars to invest in transportation—a small new car, or a larger and higher grade used car? The answer is obvious to anyone who looks over our selection and knows our reputation for honest values.

A USED CAR IS ONLY AS DEPENDABLE AS THE DEALER WHO SELLS IT

## MAN CHARGED IN DEATH OF DOCTOR REMAINS UNMOVED

By Associated Press.  
Georgetown, Texas, Feb. 9.—A verdict of death was returned here today against Harry J. Leahy, charged with the murder of Dr. J. A. Ramsey of Mathis.

The case went to the jury at 2 p. m. yesterday after a week's trial, and the jury came in with its verdict at 10:15 a. m. today.

There was no demonstration, and Leahy appeared to be the coolest man in the court room. His wife was with him, but she showed no emotion. Leahy's aged parents, who had testified in his behalf, were not present.

In a previous trial Leahy was given a sentence of 50 years, but the trial court ordered a new trial at the defendant's request.

The court today denied a motion for new trial presented by H. F. Bonham, one of Leahy's attorneys. Notice of appeal then was given.

Attorneys for the state would not say what disposition they expected to make of the case against Robert Martinez, the state's principal witness. Martinez testified he called Ramsey from his home at the request of Leahy and took the physician to the hills near Mathis where, he said, Leahy struck the doctor on the head, cut his throat and buried him.

## Supper Friday Night

At Navarro High School Friday night. Everybody welcome. Given for the benefit of Hopewell Cemetery.

## AMERICA HELD TO BE DEFINITELY OUT OF WORLD COURT

By The Associated Press.  
Washington, Feb. 9.—A proposal to amend the Statute of ratification of the world court mustered only ten votes in the Senate today after Chairman of the Foreign Relations Committee had advised his colleagues that the United States was definitely out of the court already, and that no further action was necessary.

By a vote of 59 to 10, on motion of the Democratic floor leader, Senator Robinson of Arkansas, the Senate tabled a proposal to bring up the resolution of Senator Trammell, Democrat of Florida, cancelling ratification of the court protocol.

Senator Trammell was one of those who voted for ratification while Senator Borah was the leader of the opposition. The Foreign Relations chairman told the Senate today, however, that Foreign governments had indicated they could not accept the Senate reservations and added:

"It is that ends the matter." Thus the long fight over American membership in the court has come to an end, with the United States standing definitely outside the tribunal.

## Senate Adopts on Radio Bill.

By Associated Press.  
Washington, Feb. 9.—For a third time the Senate today refused to send the radio bill back to conference.

## GRAND JURY LEFT TO DEAL WITH TWO EXPELLED SOLONS

By Associated Press.

Austin, Texas, Feb. 9.—Bribe-taking charges against P. A. Dale of Bonham and H. H. Moore of Cooper, expelled last Tuesday from the House of Representatives, were left Wednesday solely within province of the Travis county grand jury, which probably will report before Saturday.

Proclamation calling elections to fill Dale's and Moore's seats probably will be issued today by Governor Dan Moody.

The House may see another fight, like the one preceding the Dale-Moore balloting, before it disposes of a resolution introduced late yesterday by Representative Corry T. Sheets of Franklin, proposing investigation of lobbying activities of Willis Chamberlain, Houston oilman, who "ripped" Rangers before the alleged bribe transaction. The resolution was referred to the committee on public affairs.

Sheets said he had "heard" that Chamberlain claimed to know of "other things, too," but Chamberlain last night said he must have been misunderstood, that if he had known of other cases, he would have reported them.

Chamberlain heard himself alternately praised and condemned "morally" during debate preceding the Dale-Moore voting. Some claimed that his conniving with the accused in the alleged bribery and handing Dale \$1,000 made him "guilty" too, while others held that "he" made a grievous mistake in serving and should be praised for warning Rangers and House officers in advance of the purported transaction.

Dale and Moore Silent.

Austin, Texas, Feb. 9.—Renowned P. A. Dale of Bonham and H. H. Moore of Cooper, expelled yesterday from the House because of bribery charges, have not announced whether they will run for re-election.

Questioned today Moore declined to make any statement.

## PASSENGERS ON BIG LINER SUFFER FROM COLD AS OIL FAILS

By Associated Press.  
Halifax, N. S., Feb. 8.—Relief was brought today to 700 shivering passengers, who for three days have wallowed in the North Atlantic on board the United States liner steamer, President Harding, surrounded with every luxury but one—heat or the means of producing heat.

A leak in one of the fuel oil tanks, discovered after the liner had touched at Queenstown on the voyage from Bremen to New York, developed to such an extent that when near Nova Scotia last Saturday the supply was so low that it was decided to make for Halifax to make temporary repairs and replenish the tanks. But the oil supply was too low even to bring the liner into Halifax and yesterday the Captain anchored off Jeddore and asked for a convoy.

Three tugs went out last night, one of them carrying a supply of fuel oil, and found the crew of the liner huddled in the cold, the wooden hatch covers to make heat for cooking purposes so that the people on board might at least have hot food and drinks. The President Harding was taken in tow and brought to port.

## Unfilled Orders Decrease.

By Associated Press.  
New York, Feb. 9.—Unfilled orders of the United States Steel Corporation to January 31, made public today, totaled 3,800,177 tons, a decrease of 160,792 tons compared with the end of the preceding month.

## DEATH SENTENCE OF F. M. SNOW IS AFFIRMED TODAY

By Associated Press.  
Austin, Texas, Feb. 9.—The death sentence imposed on F. M. Snow of Erath county in connection with the slaying of his stepson, Bernie Connally, November 27, 1925, today was affirmed by the Court of Criminal Appeals.

The youth's head was severed from his body, presumably by an axe and found in a cellar of a country house near Stephenville. Snow's wife and mother-in-law were also killed but he was never convicted of those offenses.

The State introduced at Snow's trial signed confessions that he killed young Connally and also Mrs. Snow and her mother, Mrs. Olds, burning the bodies of the women in the fire place with half a cord of wood. Bones were found.

Attorneys for Snow based their appeal partly on the fact that the confessions were allowed to be introduced in evidence when they allegedly had been obtained through Snow's fear of mob violence.

The court held that when a defendant confesses and then relates facts and circumstances found to be true, as was done in Snow's case, the introduction of confession in the trial is admissible.

## ANDERSON COUNTY ROAD DISTRICT IS SEEKING VALIDATION

By Associated Press.  
Austin, Texas, Feb. 9.—Test of the validity of Texas road bonds, sought in a petition to file mandamus against Attorney General Claud Pollard, today was granted Road District Number 8 in Anderson county by the Supreme Court.

The road district seeks to compel Pollard to approve the sale of \$500,000 of road bonds, the remainder of a \$1,500,000 lot voted by the district in November, 1922.

Plaintiffs said Pollard refused to approve the sale on the ground that the United States Supreme Court in the Archer county case held them invalid and because, in his opinion, the special session of the 29th Legislature had no authority to pass the general bond validating law or the special validating law for Anderson county.

Pollard said the action is "practically a friendly suit" to test validity.

## COURT HOUSE NEWS.

From Wednesday's Daily.

District Court.

J. C. Attaway, negro, plead guilty in the district court on an indictment for murder Wednesday morning and the jury returned a verdict of guilty and assessed his punishment at five years in the penitentiary. He was sentenced by District Judge Hawkins Scarborough. The accused was tried in connection with the death of M. Price, negro, on the Cotton Belt railroad west of Corsicana October 20, 1926, in an altercation. It is alleged that the accused hit the deceased with a rock and then took an axe, said to have been in the possession of Price, and struck him in the head.

J. S. Kemp, charged by indictment with receiving and concealing stolen property, was given a five-year suspended sentence in the district court Tuesday afternoon. He entered a plea of guilty.

Tommy Bostick, aged 19 years, plead guilty Wednesday afternoon to automobile theft alleged to have been committed January 12, 1927, in Dallas. The arrest here was made by officers Callaway, Tickel and Griffin. The defense attorneys asked for suspended sentence.

The attorneys were arguing the case at press hour Wednesday afternoon when it was brought out in the testimony that the accused had been sent to the reformatory several years ago for automobile theft. Among the witnesses testifying were Allen Callaway, constable of Corsicana; the defendant, Mrs. Bostick of Waxahatchie, mother of the defendant; Joe Lee, sheriff of Ellis county.

## Justice Court.

Cliff Stagn was lodged in the county jail Wednesday on complaint for the alleged assault with intent to rob.

## CONSTRUCTION COST OF LIMESTONE ROADS SHOWN BY ENGINEER

Special to the Sun.  
Groesbeck, Texas, Feb. 9.—Thirteen roads of the "Contract No. 17" of Bramer and Wilder in Road District No. 4, were listed by actual cost in a statement made to the county commissioners court by Horace Boyett, former county engineer.

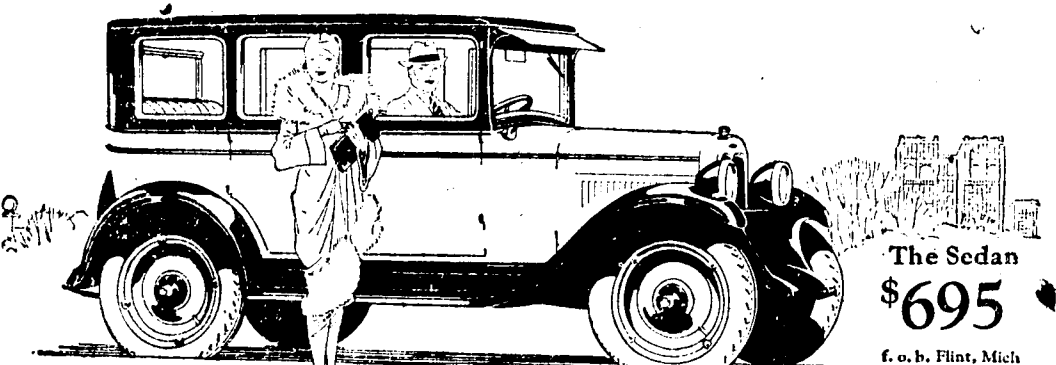

The commission had requested information on how much each road cost, and the engineer, who had previously submitted reports for the whole contract, submitted the separate roads and their costs. The costs of the roads, as listed, were:

Tehuacana road, \$29,148.73; Pen Oak road, \$95,740.09; Shiloh road, \$9,536.31; Best road, \$3,528.26; Pen Oak branch, \$29,550.89; Beebe road, \$12,668.78; Datura road, \$21,143.39; Comanche road, \$2,531.86; Ponit Enterprise road, \$7,754.36; Hinchliffe road, \$89,215.51; Tehuacana crossing road, \$45,

432.50; Suttle road, \$37,812.50; Rocky Crossing road, \$1,618.78.

The cost on the Shiloh road is the money spent while the engineer was employed, but the road is not completed and the amount said to be for part only. The Rocky Crossing road estimate is from the Remmon grounds road to the bridge only. It is said. The total for the work under the estimates given in this report is \$544,041.18, plus the \$1,618.78 for Rocky Crossing.

## CHESTER M. IDEN DIES FOLLOWING AN ATTACK PERITONITIS

POPULAR YOUNG BUSINESS  
MAN LEAVES LARGE CIRCLE  
OF FRIENDS

Las Vegas business and social circles were deeply shocked this morning by the announcement of the death last night at a local sanatorium of Chester Milo Iden, who was seized at his desk at the Gross-Kelly offices with an attack of appendicitis, Friday, operated on Saturday and was supposed to be doing well.

Death came swiftly, when peritonitis set in after the operation, and was announced at an early hour this morning.

Deceased was one of the conspicuous figures of the community as well as probably the most popular young business man. Active, handsome, foremost in civic and social work, a kind and provident parent and good citizen, his sudden removal from daily contact with others, while in apparent perfect health, was tragic and his loss will be severely felt, not only by his immediate friends and family but by the many of a wider circle, who knew and admired him.

He was already, at his comparatively young age of 41, noted in the high local business and financial field. He was a stockholder and official of the Gross-Kelly company, being assistant to both the offices of treasurer and secretary at the time of his death, and no doubt would have climbed the highest of business heights had his life been lengthened to the allotted span.

The son of Mr. and Mrs. Loman Iden, he was a native of Elmer, Ind., came west when young and in Corsicana, Texas, met Miss Ruth Hamilton, whom he married and who survives him as his widow; they removed to Clovis, where he was in business, coming in 1912 to Las Vegas, where he has since made his home and reared his family. He leaves also three children to mourn his loss. Chester M. Jr., who is a student in the Las Vegas high school; Lawrence and Elizabeth. He was one of a family of three brothers, of whom only one survives, Earl C. Iden, the well-known Albuquerque attorney, who is in the city today arranging for the funeral. He was a cousin of Clarence Iden, well known in Las Vegas, who is also connected with the Gross-Kelly company.

He followed early affiliation with the Methodist church, was a member of the Masonic lodge of Clovis, being a thirty-second degree member of that order, having the Scotch rite, the Shrine and Eastern Star degrees. He was also a member of the local Elks lodge.

The above article was taken from the Las Vegas Daily Optic. Mrs. Iden, a former Corsicana, daughter of Mr. J. D. Hamilton and sister of Mrs. Jessie Hamilton, and Guy Hamilton, has a large circle of friends who deeply sympathize with her in the loss of her husband.

Carillon of 53 Bells  
For Albany City Hall

By the Associated Press.  
Albany, N. Y., Feb. 10.—A carillon of 53 bells which will be the most complete complete carillon in America, is being cast in England for the city hall here.

Most of the bells are memorials, paid for by popular subscription of \$50,000. One of the largest units, a deep bass bell, is a testimonial to Gov. Alfred E. Smith, whose friends desire to honor him in this way while he lives.

Josef Denyn, Carillonneur of Malines Cathedral, Belgium, has agreed to play the opening program, probably Sept. 19, the anniversary of the first battle of Saratoga.

## VETERANS WAR RISK INSURANCE EXTENSION GRANT IS APPROVED

By the Associated Press.  
Washington, Feb. 10.—Extension of July 2, 1928, of the time in which former service men may get war risk insurance into regular government life policies was approved Wednesday by the House Veterans Committee.

Under the present law the time would expire next July 2.

The committee also approved a bill which would continue to fix compensation of veterans in hospitals without dependents at \$80 a month. This measure would amend a law passed last session which could increase the allotment to \$40 per month, beginning next July 1.

A third measure, sponsored by Mrs. Ruth Nourse Rogers, the Massachusetts Representative, to place veterans suffering with chronic diseases on the same basis with tuberculosis patients also was approved. The three bills will be consolidated into one measure to facilitate passage.

When You  
need watches, diamonds, clocks, silverware, see Fred Mitchell Jewelry Store, 214 South Beaton.

NEXT MONDAY IS ST. VALENTINE'S DAY. Remember your loved ones with an appropriate Valentine. Mammoth display at CITY BOOK STORE.

## Sinclair Quality and Service

An aid to bigger business

A satisfied customer counts—he seeks real quality, and when he finds it he repeats his orders with the dealer; and he tells his friends.

Thus the dealer's business grows; because "Quality and Service" is the basis of repeat orders.

STANDARD TIRE COMPANY  
EVANSTON, ILL.

December 18, 1924.

Sinclair Refining Company,  
2540 W. 22nd Street,  
Chicago, Ill.  
Gentlemen:

We are pleased to take this opportunity to extend to you the Season's Greetings and in doing so, we cannot comment too highly on the very excellent service we have received from the SINCLAIR organization and in particular the very many accommodations we have received from the salesman and the gasoline delivery driver on this route.

We are now nearing the end of the second year of handling SINCLAIR Products—Gasoline, Oils, Greases and Soap—and to place credit where credit is due, we could not overlook the fact that the excellent value and consistent quality of SINCLAIR Products have assisted materially in helping us double our business turnover during the last year.

Wishing you record business in the coming year.

Yours very sincerely,

Standard Tire Company,  
(Signed) Edward Noach, Prop.

SLANEK'S GARAGE  
EVANSTON, ILL.

THE UNIVERSAL CAR

# Makes 57 4-10 Miles

## On One Gallon of Gasoline

In a mileage contest held last week by Ford Dealers of Dallas County, for Ford Cars of the improved type, driven by the owner, the above mileage was made by the winner.

General average for the 8 competing cars was 42.45 miles to the gallon. This mileage was made with standard equip cars—just the same car you buy from any Ford Dealer's stock.

All Ford Cars and Trucks are equip with the new Holley Hot-Plate Vaporizer, which not only makes such mileage possible, but insures smoother operation and more power.

A demonstration will convince you of the quality of the Improved Ford.

## Good News!

### For the Ladies of the County And Surrounding Community

Here's an opportunity to raise some quick money for your Church, Sunday School, School, Civic, Social or Fraternal organizations.

## The Plan is Very Simple

For Every 20 New Subscribers You Secure for the Semi-Weekly Morning Light, the Popular County Paper, We Will Give You \$10.00 In Cash.

There Is To Be NO Limit to the Number of Subscriptions You Get, the More the Better. This Liberal Offer will be Good Until May 1st.

## What You Get For \$1.00

### The Subscribers Get A Full Dollar's Worth

For \$1.00 a year in advance the subscribers to the Semi-Weekly Morning Light get 104 papers a year, two papers a week for the price of one.

He gets from ten to twenty pages of international, national, state and county news every issue.

He gets strictly a home-print paper, brimming full of all that one could expect in a modern newspaper.

He gets his paper regular, and his paper is dependable, educational, and instructive for every member of his family.

When he pays for his paper he knows he will get it, or money will be gladly refunded.

He knows that when his time is out that his paper will be stopped if he does not renew.

He and his family appreciate the many features of the paper, including many costly syndicated features that are published exclusively in the Light.

The family reads the happenings of their home community each week, as there are many paid correspondents throughout the community who send in all of the news of their districts at regular intervals.

The subscribers also appreciate the great advantage the Light has by being the rural publication of the Corsicana Daily Sun, which paper is an Associated Press Paper as well as having many other attractive and exclusive features.

Space will not permit going further as to what the Light stands for, as the large list of paid in advance subscribers is best evidence that the paper is what the people want, or they would not pay for it year in and year out, with the subscription list growing rapidly.

### The Advertiser Gets Full Coverage.

In publishing a newspaper we manufacture advertising space to sell.

Its value is measured by the number of our readers plus their interest and confidence in the paper they have selected as "theirs."

Their purchase of it constitutes their invitation to you to put your business message before them through its columns.

When they sit down to read it they are in the mood for news - your news, if you have any. This means that they'll read it gladly and responsively.

Even a personal letter from you might not happen to reach them when they're in so favorable a mood as when they read their newspaper.

The reader's mood for news is therefore one of the things we sell in selling advertising space.

The Semi-Weekly Morning Light has been, and will always be, for a permanent good roads system, and for all progressive moves for the upbuilding of the community.

### FORMER CORSICANA WOMAN DIED EARLY TUESDAY, BEAUMONT

Mrs. Hattie Bright, wife of Tom Bright, died at the family home in Beaumont at 1:30 o'clock Tuesday morning, according to messages received in Corsicana early Tuesday by friends and relatives of the family. Mrs. Bright was a former resident of Corsicana, where she resided for many years prior to moving to Beaumont several years ago. Funeral services will be held in Beaumont on Thursday, with burial in that city, it was stated. She had been sick only a short time.

Mrs. Bright is survived by her husband and one daughter, Mrs. Workman of Beaumont, and two sisters, Mrs. P. M. Lea and Mrs. New Lindsey, of Corsicana, and two brothers, John T. Garner of Corsicana and T. J. Garner of Pleasant Grove community.

Mrs. P. M. Lea and John T. Garner will leave tonight for Beaumont to attend funeral services for Mrs. Bright on Thursday. The Bright family resided in Corsicana for many years, where Mr. Bright was in business for a long time, and Mrs. Bright had a large circle of friends here who will sorrow with her family in her untimely passing.

### IS MARRIAGE A FAILURE?

Comment on the Uniform International Sunday School Lesson for  
February 13, 1927.  
Read Ephesians 5 and 6  
WM. SOUTHERN, JR.

#### MAKING OUR HOMES CHRISTIAN.

—Eph. 5: 25 to 34.

Eph. 5: 25. Husbands, love your wives, even as Christ also loved the Church, and gave himself up for it.

26. That He might sanctify it, having cleansed it by the washing of water with the word.

27. That He might present the Church to himself a glorious church, not having spot or wrinkle or any such thing; but that it should be holy and without blemish.

28. Even so ought husbands also to love their own wives as their own bodies. He that loveth his own wife loveth himself.

29. For no man ever hated his own flesh; but nourisheth and cherisheth it, even as Christ also the Church;

30. Because we are members of his body.

31. For this cause shall a man leave his father and mother, and shall cleave to his wife, and the two shall become one flesh.

32. This mystery is great; but I speak in regard of Christ and of the Church.

33. Nevertheless do you also severally love each one his own wife even as himself; and let the wife see that she fear her husband.

34. 1. Children, obey your parents in the Lord; for this is right.

2. Honor thy father and mother (which is the first commandment with promise.)

3. That it may be well with thee, and thou mayest live long on the earth.

4. And, ye fathers, provoke not your children to wrath; but nurture them in the chastening and admonition of the Lord.

Golden Text.—Let us love one another, for love is of God.—1 John 4:7.

(Text is from the American Standard Edition of the Revised Bible copyright, 1901, by Thomas Nelson & Sons, and used by permission.)

Divorce suits clog our court dockets. The sordid and pitiful stories of broken lives, of little children who have not a chance of happiness in their home, and who pass in parade before the judges in the cities until some of them conclude that the whole world is wrong, that the American home is no more and that Christianity has failed.

Added to this we read the stories in glaring headlines every day and, unless we have an understanding of humanity and a wide knowledge of people, our faith is almost shaken. We then discuss wisely remedies and attempt to treat symptoms. A campaign against divorce has even reached the Congress of the United States and a law is asked making uniform our marriage and divorce laws which are now left to the individual states.

I am expecting a flood of indignant letters in protest when I say that divorce never breaks up a family. The family is broken long before the divorce suit is filed. The divorce court is simply a symptom of a disease much more deeply rooted. I would not refuse a divorce to a good woman whose husband is drunken and brutal. I would not refuse a divorce to the man whose wife had, like the wife of Hosea,

wrecked the home. Divorce is not the evil. Divorce is merely the symptom.

The fact is given as an argument against divorce that in some of the United States has increased 140 per cent and that the statistics show one divorce for every 75 marriages. A law making divorce harder to get, a law making divorce laws uniform in all the states, or any other law or set of laws will not cure the situation. The broken family is broken whether there is a divorce or not; the children are still the victims regardless of the divorce courts.

The remedy for the ruined home lies not in law but in love. All over this wonderful Christian land of ours are beautiful homes, homes where there are children, homes where the husband and the wife stand side by side, meet the troubles and the happiness of life in companionship.

A divorce is news for the paper. There is no news in the thousands of happy homes where the thought of divorce never comes. We take the homes for granted.

Even in the earliest days of the church the Christian home was the unit of measure. In his letter to the Ephesians, Paul urged the building of the home and gave wise counsel to husbands, wives, and children. It would be easy to believe that when in prison at Rome, Paul wrote this letter he had just been looking over The Ephesus Daily News when the divorce court was in session and had found the names of some of the members of his church. The circumstances do not bear out this idea for the letter to the Ephesians was most likely a circular letter sent by Paul to many churches.

The Christian church made a specialty of the home even in those days. Woman was not considered as she is now, a creature which would make even our twentieth century recklessness to wonder were everywhere in vogue. Here and there in little groups were Christian churches and in these churches was taught the sacredness of marriage and the duty of one man to one woman and the care and training of the children.

I believe in marriage. I believe in marrying young. When two people fall in love, are really in love, they forget all about money; they do not think about hardships or poverty; they do not coolly calculate on how much it will cost to raise a family; they go to get married, and thank God even in these days of easy divorce there are several marriages which succeed against one which fails; the two become full partners and begin to build a home. The home today is the unit which makes our country great and which forms the foundation of Christianity.

Homes today are not what they were even one generation ago. Men of my age remember the old home. There were in my home half a dozen boys and girls. Each one had some duty to perform in that family. From the father and mother to the littlest one who could and did proudly carry in one little stick of wood for the pile it was one for all and all for one. There was not much money and none to spend. Clothing was sufficient to cover us all and keep us warm in winter.

### Richard Drummond Is Called by Death

On Sunday night, February 5, 1927, the death angel winged its way into the home of Mr. and Mrs. W. T. Drummond, 309 West Third avenue, and took from them their son, Richard (Dick) Drummond, age 22 years. The shadow of death came as the Sabbath day drew near its close. It was 10 minutes after 10 o'clock as life slowly ebbed away with death's tide. Loved one stood at his bedside as he quietly stepped out into eternity.

Dick was born in this city in 1904, and has spent the most of his life here. He was a member of the Methodist church, and a Christian boy, loved by every one who knew him. He was employed at the city's theatres. His battle for life was fought hard, seven weeks he struggled between life and death, until at last death claimed a victory.

We sometimes wonder why death will take as its victim a real bloom of life. But God is not unjust. He is just, and sometimes we will understand it better. Through life there must be darkness as well as sunshine. God's will is the rescuing ship in the time of grief. Let sorrow be forgotten, for we know not when we will have to answer to God's call. Dick's life has been a dutiful one to his home and his country, serving a period of his time in the United States Army with the Coast Artillery stationed at Camp Winfield Scott, Cal.

He is survived by his parents, one brother and one sister, all of whom are still at home. A tribute of respect for his military services were paid in military honor at his home. A brief talk on what it means to be a soldier was rendered by Post Commander Wayne Howell, following the regular services, which were conducted by Rev. J. Howard Williams. Uniformed pallbearers were selected

from Captain Merce's Battery of the National Guard. After services the body was laid to rest in the Oakwood cemetery where it will sleep in peaceful slumber to await the resurrection of the dead.

A FRIEND.

In Memoriam.

Richard, the oldest son of Mr. and Mrs. W. T. Drummond, after many weeks of suffering fell asleep in the arms of his Savior Sunday night at 10:10 o'clock. God called this young man because he had no fear. He was called on to do his duty during the late war and he willingly answered the call for his country. It was not his captain that called him Sunday night, it was his Savior called and he answered, called him to his eternal home. Weep not, dear mother, father, sister and brother, for he has gone on to prepare the way for his dear ones he left to answer the same call that he has answered. Oh, what a beautiful sight to gaze upon that flag-draped casket! What did it mean? Dick, that he had lived the life he should be honored by being carried to his last resting place with his casket draped in that beautiful American flag.

He is gone, but his memory shall live on forever.

A FRIEND, M. Y.

### Soviet Vengeance Is Retroactive

By Associated Press.  
Leningrad, Russia, Feb. 10.—Three former czarist officials were executed by a firing squad today for alleged ill treatment of revolutionaries prior to 1917. They were M. Artist, former director of the Rig Central Prison; Loman, his assistant, and Kroomin, the hangman.

There were family prayers in the evening and thanks offered at the table before the meals. And it was home.

The American homes are not like that now. I am not at all sure that I would want them to be of the old style. Our houses are not the same, our clothing is not the same, our ambitions are not the same. My definition of a home might be very different from that of my son or daughter just starting out to make one. Home is not a house, nor money nor the possession of an automobile. Home is where there is love and a perfect partnership.

In Paul's time the woman had no rights, she was practically a slave and in his letter to the Ephesians he admonished "Let the wife see that she fear her husband." The modern girl would not stand for that now. We have taken a forward step. The wife is a full partner in the home. It was not my intention to offer advice in this article but I will venture this. When starting a home by all the cards on the table. The woman should know exactly how much money there is for that home and should be given credit for a sufficient brain power to help spend it. We have not entirely gotten away from the idea that the man should hold the purse and dole out an allowance and pass on all expenses. When a marriage partnership is entered into the wife may run the home and not be an earner. She is simply doing her part while the man does his part. The home paid for by years of saving and the money in the savings account is just as much the earning of the wife as of the husband.

And there should be children in every home. No childless man or woman can know the same kind of home love which parents understand. The little child opens new avenues of love, brings new sacrifices and creates new dividends for the partnership. The child brings into the home new plans. A son has been entrusted to the care of mortals. The windows of two souls have been opened that a little bit of heaven may come in.

As far as we know Paul was not married. Senator Jim Reed would probably have told him he was a poor specimen to attempt to tell others how to run a home. But Paul knew. Paul had met face to face with God and God put his seal upon the home and it has been and is the foundation of Christianity.

If we want to stop the divorce we must begin in our own homes. Some of you may not believe in infant baptism, but when I see a young couple stand before the altar and separate their babe I am thankful. Baptism will not guarantee the future of the child, but I venture to say that something comes into the lives of those young parents that makes them better fathers and mothers and better parents.

Instead of shouting at windmills and getting in the papers fighting what we call the divorce evil let us seek deeper and find the cause of the disease. Let us discover, if we may, what breaks up homes and what makes for happy homes and then turn our efforts to the building of homes.

Then our search will lead us to the doors of the church—The Religious Syndicate.

### VOLLEYBALL AND GYMNASTICS WILL BE PLAYED AT Y

By BOYCE MARTIN.

Dallas, Texas, Feb. 9.—At the district meeting of the Northeast Texas District, physical education committee of the Y. held at the Y. M. C. A. here Tuesday, the district basketball tournament was awarded to Dallas and will be played on February 19, and the district handball tournament was awarded to Dallas and will be played on April 2. District volleyball and gymnastics were awarded to Corsicana, the volleyball tournament will be held on April 9 and the gymnastics will be held May 14. Denison was awarded the swimming tournament, to be held on May 28, and Dallas was also awarded the indoor baseball tournament to be held May 21. The meeting was opened by an invocation by Geo. Roessler, physical director of the Dallas Y. M. C. A.

In addition to naming the dates and cities for the district tournaments several matters were brought into connection with these tournaments as to rules and regulations and several motions were made and passed, after much discussion on the various phases of the work. The question of amateurs, professionals and semi-professional players came up for consideration and the meeting went on record as adopting the National Y. M. C. A. rules and regulations on this question. It was also agreed that this committee would recommend to the State committee that rules and regulations as followed by the Y. M. C. A. would next year apply to Y. M. C. A. district athletic contests. The district basketball tournament will be basketball, which will be held in Dallas Saturday, Feb. 19,

and details were worked out for this tournament. The first game will be played Saturday afternoon at 1:30 and the final game will be played at 8 o'clock Saturday night. The Northeast District is composed of Corsicana, Dallas, Sherman and Denton. Robert Cook, physical director of the Sherman Y. M. C. A., and the following, all of Dallas: C. J. Rutland, N. N. Campbell, R. L. Hawley, Dr. A. R. Ethridge, chairman of physical education committee of Dallas.

Geo. Roessler, physical director of the Dallas Y. M. C. A.; C. P. Kirby, member of the State physical education committee; S. H. Evans and Olin Searlock, R. L. Newland of Corsicana was elected secretary. All of those present at the meeting were guests at the noonday Y. M. C. A. Luncheon Club, where they heard a talk by Harry Dodge, international speaker.

The meeting was a very profitable one and most of the participants were optimistic as to the successful outcome of the coming district and State meets.

While in the city, Physical Director R. L. Newland of Corsicana made some tentative plans with Dallas teams for his "Tangle" basketball team that defeated Dallas last Saturday night, among them being a return game with the Dallas Y. crack team to be played in

Dallas, probably Tuesday night, and a game with the Dallas Athletic Club team to be played later in Corsicana.

### TEST OF OIL SAND IN TEXAS COMPANY CHENEY BEING MADE

A test of the two and a half feet of oil sand found in the Texas Company Cheney B-1, south of the Powell field, is being made by geologists and chances for a producer in this well will be known in a day or so. Six inches more of oil sand was found Tuesday night at 2,965 feet. The top of the sand was found at 2,963 feet Thursday night. If the test proves favorable casing will be set at this depth. A driller, coming in from the well stated that the well looked very favorable.

The Sun Company Swink C-1, in the Richland field will soon be a mile deep. They were drilling on this well Wednesday morning at 5,263 feet. Seventeen more feet and the well will be one mile deep. Gas and showings of oil have been found all along at intervals and the showings are getting better. It is believed. This being the deepest well ever drilled in this district, quite a bit of speculation surrounds it. Geologists and drillers are at sea as to what to really expect out of it. It is believed that the Trinity sand will be found around 5,300 or 5,325 feet.

The Magnolia Petroleum Company has spudded in on the Rufus Hardy No. 3, south to southwest of the Kent Hardy lease on the Kerens road east of town. Surface casing was set Tuesday and driller and crew are waiting for cement to harden. This well will be a shallow test, going to the 1,790 foot oil sand, which was found by Garland Kent on the Hardy lease.

Derrick is up for the Magnolia on the Stout farm and it is expected it will be spudded in this week if weather permits.

The G. C. Kent Hardy No. 10, which was brought in about the same time the Kent Hardy No. 9 came in flowing around 50 barrels an hour, started flowing Tuesday at approximately 20 barrels a day after rods and tubing had been run in.

Derricks are rigged up on Kent Hardy Nos. 11 and 12, and are awaiting better weather before spudding in. The crews have been busy the last few days digging slush pits but have made little progress due to the rainy weather.

E. L. Smith et al on the Steuben ranch No. 1 in the old field at Mexia were drilling at 4,063 feet Tuesday in hard lime.

The Humble Oil and Refining Company was drilling at 3,112 on their Elliott & Clark No. 1, near Jacksonville in slate and shale and streaks of sand.

The Texas Company Pruitt No. 1, near Ephraim was drilling in sticky shale Tuesday night at 1,396 feet.

### MOVE TO TABLE AN INVITATION TO DRY ADVOCATE RESENTED

By Associated Press. Austin, Texas, Feb. 9.—A move by Representative Sam Gates of Runge to table a Senate resolution inviting William G. McAdoo to address the Texas Legislature, was making fair headway toward a warm House squabble shortly before noon today when proceedings were interrupted for a joint session to hear Captain Richmond P. Hobson make a temperance speech.

Decision on the invitation probably will be made this afternoon. The House a few minutes before had adopted a Senate resolution inviting Governor Albert C. Ritchie of Maryland, as much a "wet" as McAdoo is a "dry" to address the Legislature when his speaking itinerary brings him to Texas. The resolution was by Senator J. H. Ballou. The McAdoo resolution was signed by Senators Love, Held, Neal and others.

Representative George Purl attacked Gates' motion table, declaring that "this House cannot afford to take a slap at a man who has twice been the choice of Texas for president."

Gates had not gotten a chance to answer when business was halted.

The House adopted a Senate resolution calling on the Federal government to cut channels through Padre Island on the Gulf coast to allow Gulf currents through Laguna Madre, and thus preserve fish said to be worth thousands of dollars.

### Amnesty Showdown Falls.

By The Associated Press. Austin, Texas, Feb. 9.—Efforts to force a show-down on the Senate bill repealing the amnesty granted former Governor James E. Ferguson at the last session of the Legislature failed today on a technicality.

Senator Love, of Dallas, author of the bill, moved that it be made special order of business of the call tomorrow morning but was overruled on a point of order that the joint Senate and House rules require the Senate to act on all House bills before it on Wednesday's and Thursday's before taking up other matters.

The amnesty bill is not far from the top of the list of Senate bills on second reading.

### Kizer Cannot Accept.

By Associated Press. Austin, Texas, Feb. 9.—Jonas Kizer of Houston, who has been lodged the office of State game, fish and oyster commissioner, to succeed T. E. Hubby of Waco, resigned, told friends today he will not be able to accept the appointment.

### New Courts Approved.

By Associated Press. Austin, Texas, Feb. 9.—A new county criminal court for Dallas, and an additional district criminal court for Houston were finally approved by the Legislature today when the Senate approved House bills authorizing the new tribunals. The bills need only the signature of the Governor to become laws.

Texas Tech Directors named. By Associated Press. Austin, Texas, Feb. 9.—Governor Dan Moody today announced and sent to the Senate the names of two nominees for places on the board of directors of the Texas Technological College at Lubbock. They are George C. Comegys, Collin

county, chairman, to succeed Amos G. Carter of Fort Worth, resigned; and Henry P. Kimbro, Lubbock county, member to succeed himself for a term of six years.

### PURSLEY WOMAN IS BURIED WEDNESDAY; DIED LATE TUESDAY

Mrs. Lillie B. Comer, aged 36 years, wife of S. B. Comer of Pursley, died at the family residence Tuesday afternoon at 4 o'clock and the remains were interred in the Pursley cemetery Wednesday afternoon.

She is survived by her husband and six children.

### FUNERAL SERVICES HELD WEDNESDAY FOR ZION'S REST MAN

Moses Taylor Summers, aged 72 years, died at his residence west of Zion's Rest Tuesday afternoon at 2 o'clock and the remains were interred in Zion's Rest cemetery Wednesday afternoon at 2:30 o'clock. The services were conducted by Rev. W. G. Gwaltney, pastor of the Zion's Rest Methodist church.

He is survived by his wife and several grown children.

### Throw off that Cold by taking Klok-Lax

Don't go around choked up with a cold this winter! Take Klok-Lax at the first sign of distress and you will throw it off. Stop using sickening drugs that get your stomach all out of fix. You have got to clean out the clogged wastes in your intestines and start a free bowel movement before you can get rid of a cold. Klok-Lax is the new, improved way to treat a cold. It thoroughly cleans out your entire 28-foot intestine canal. Then, the most miserable cold will disappear. Better still, keep your bowels leaned out all the time—keep your system purified by taking Klok-Lax regularly—and the chances are you will never take a cold. Everybody is using Klok-Lax now! It's the thorough, effective way to keep from having constipation. That's why it is the best treatment for colds. Get Klok-Lax at any good drug store.

Advertising drives out lazy dollars.

## SWINE BREEDERS OF TEXAS WILL MEET IN ENNIS FEB. 15-16

Special to the Sun.  
Ennis, Texas, Feb. 8.—The annual mid-winter meeting of the Texas Swine Breeders Association will be held in Ennis February 15th and 16th. A banquet will be held the night of the 15th at which time medals will be awarded the ten litter contest winners in Texas.

President A. E. Flowers, Dallas, is very enthusiastic over the prospects of one of the best meetings ever held. A large attendance is expected as there is a great amount of interest in hogs at this time. Especially are the farmers expected to attend in large numbers.

The program as announced by E. R. Eudaly, Secretary of the Association follows:

Feeding, by Fred Hale, Chief Division of Swine Husbandry, Texas Experiment Station, and A. L. Ward, Director Educational Service, Texas Cotton Seed Crushers Association.

What Ton Litter Contest has shown, by E. R. Eudaly, secretary Swine Breeders' Association and Swine Husbandman, Extension Service, A. and M. College.

Ways U. S. Animal Husbandry Helps the Farmer, by C. D. Lowe, U. S. Department of Agriculture.

Relations of Dairy Development to Swine Development, by A. L. Simmons, secretary, Texas Jersey Cattle Club, Field Man American Jersey Cattle Club.

Hog Sanitation, by Dr. Verne Scott, Professor Vet. Science, John Tarleton Agricultural College, Stephenville, Texas, and T. T. Christian, Veterinarian, Waco, Texas.

Development of Herd, by J. J. McLean, Duroc Jersey Breeder, Ada, Texas.

Relation of Farm Publications to the Swine Industry, by Frank Briggs, Editor Farm and Ranch, Dallas, Texas.

Ton Litter Plant for 1927, by M. R. Martin, Field Editor, Progressive Farmer.

Farm Management of the Herd, by D. S. Buchanan, Professor of Hog Husbandry, A. and M. College.

Getting the Most for Our Pig Crop, by Tom Fraser, Hog and Sheep Salesman for Evans, Snider, Baill & Co., Fort Worth, Texas.

Possibilities of Swine Development in West Texas, by W. L. Stangor, Head of Animal Husbandry Department, Texas Technological College, Lubbock, Texas.

A Farm Lease Contract That Will Encourage Livestock Farming and Soil Building, by Eugene Butler, Editor, Progressive Farmer, Dallas, Texas.

Address by C. H. Alvord, Director of Extension Service, A. and M. College.

### COURT HOUSE NEWS.

From Tuesday's Daily:

District Court.  
J. S. Kemp, charged by indictment with theft and concealing and receiving stolen property, was on trial in the district court Tuesday. He entered a plea of guilty and asked for a suspended sentence, it was reported.

Richard B. Lee entered a plea of guilty to forgery Monday afternoon and was sentenced to two years.

Taylor Douglas pleaded guilty to removing out of the state and disposing of mortgaged property. He was given a five-year suspended sentence.

E. E. Simpson pleaded guilty to three cases of theft and two cases of burglary in the district court Monday afternoon. He received a three-year sentence in one of the burglary and one of the theft cases and two years in the remaining cases. The three-year sentences will run cumulatively and the others concurrent. He will serve his years. Sentence was pronounced by District Judge Hawkins Scarborough.

Bill Hickman pleaded guilty to theft by Bailee and was given a two-year sentence. He also pleaded guilty to forgery and the passing of a forged instrument and received two years in that case. The two sentences run concurrently.

Warranty Deeds.  
Murrell F. Mosshart, et ux, to Ferrell C. Mosshart, Lot 3, Block 624, Corsicana, \$10 and other considerations.

Austin Neal Jr. et ux to Pearl Neal, Lot in Block 232, Corsicana; Lot 10, Block 105, H. & T. C. R. Co. Addition, Corsicana, \$5 and other considerations.

Pearl Neal to Austin Neal Jr., Lot 3, Block 124 and Lot 9, Block 106, H. & T. C. R. Co. Addition, Corsicana, \$5 and other considerations.

E. E. Nettles, et al. to Walstein Smith, Lot 4, Block 125, Kerens, \$2,000.

G. C. Kent, et ux, to J. W. Glasscock, 2,376 acres of the Peter Summerville survey, \$1 and other considerations.

F. P. Ficklin, et ux, to P. H. Franklin, Lot 11, Block 625-B, F. P. Ficklin Addition, Corsicana, \$7.50.

T. P. Hines, et al. to A. W. Hines, 212-1/2 acres of the F. Procello survey, \$10,000 and other considerations.

Mineral Deeds.  
M. L. Levine to H. R. Stroube and W. C. Stroube, 1-256th interest in 73-1/2 acres of the James Smith survey, \$10 and other considerations.

Oil and Gas Lease.  
W. H. Brown, et al. to J. W. McLondon, 20 acres of the John White survey, \$350.

Justice Court.  
Rufus Moseley, negro, was bound over to await the action of the grand jury on a charge of the theft of five Rhode Island Red hens. The accused was arraigned before Judge J. J. Sullivan. The new law in effect now makes the theft of chickens a felony and is punishable by a penitentiary term.

## LOCAL PEOPLE HAVE PURCHASED CONTROL OF MILK COMPANY

Local parties have purchased the Pasteurizing Milk Company from Waco interests who have been conducting the business here as a branch or in conjunction with the Waco Pasteurizing Milk Company and have taken charge of the business, located at 1007 West Fifth avenue, and will conduct same hereafter under the name of the Pasteurizing Milk and Creamery Company, conducting a general milk and cream business and specializing in pasteurized sweet milk. Grade A raw milk and Bulgarian buttermilk, it was stated Tuesday.

J. Wesley Edens is president of the new company and R. E. Ruble, secretary. Z. J. Platt is manager of the business, while Mr. Platt, T. J. Worthington and W. D. Nolen compose the board of directors.

The Pasteurizing Milk Company was established here some time ago and the taking over of the business by strictly local interests will be welcomed by all customers of the concern, which has enjoyed a good business under its old ownership and no doubt this will be greatly increased since local business men of known business ability and integrity have seen fit to purchase the business and continue its operation in the same location.

What Ton Litter Contest has shown, by E. R. Eudaly, secretary Swine Breeders' Association and Swine Husbandman, Extension Service, A. and M. College.

Ways U. S. Animal Husbandry Helps the Farmer, by C. D. Lowe, U. S. Department of Agriculture.

Relations of Dairy Development to Swine Development, by A. L. Simmons, secretary, Texas Jersey Cattle Club, Field Man American Jersey Cattle Club.

## MEMBERSHIP DRIVE IS BEING STAGED BY LOCAL LEGION POST

In view of the membership drive now on by the American Legion an initiation committee was appointed at the regular monthly meeting of Johnson-Wiggins Post No. 22, in order that some interest may be created when accepting new members in the post in March.

Legionaire D. D. Green, recently sent to Corsicana from Shreveport, Louisiana, was appointed chairman of the committee which will work up a program for the next meeting. Others on the committee are: Adjutant L. V. Brown, Fred Hillman, Wayne Brown, William V. Mowman and W. M. Milam. Sandwiches and cigars will be served and a good time is assured to every one who attends the next meeting.

Adjutant Majora stated that the quota for the Johnson-Wiggins Post was 175 members, and at present there are 56 paid up members. The drive will start today and the town will be thoroughly canvassed by members. It is the intention of the Post to get as many as 200 members.

Another air circus entirely different from any other ever staged in Corsicana was offered by Charles Pedley whereby a French village would be constructed in a field near town and bombed from the air. Machine guns will be on hand to protect the village, and French names of familiar places to the overseas boys will be painted on the drums and canteens. This makes the affair very realistic. It was heartily approved by every Legionnaire present and a committee composed of Dave Daniels, B. W. George and F. L. Seale were appointed to investigate the plan. Mr. Pedley stated that he would put the show on under the auspices of the American Legion, or else he would stage it himself and just ask the support of the local post.

In addition to seeing the show a ticket will be given with admission with a row of numbers thereon and the lucky number will receive an advance to be given away by Mr. Pedley. The price of admission was not mentioned, but will be announced later. At 9 o'clock the meeting stood adjourned.

Johnson favors time limit for farm relief plan

Washington, Feb. 8.—A proposal to limit any farm relief bill adopted by Congress to a period of five years' operation, with view of allowing a demonstration whether the plan is effective and brings relief, is proposed by Representative Luther A. Johnson of Texas.

In a speech to the House Saturday while farm relief was under discussion, Mr. Johnson gave notice that he would offer such amendment.

The purpose would be to extend the operation of the law beyond the five-year period if the scheme Congress adopts "works." Mr. Johnson told the House, so that it could be a continuing process for handling the surplus of the crops covered by the legislation.

Representative Blanton interrupted to ask how long it required to abolish a law which created burdens and hundreds of officeholders. He added that his district is for farm relief and that he proposed to vote first for the Aswell bill and next for the Crisp bill.

"But if I can't get anything else I am willing to vote for the McNary-Haugen bill," said Mr. Blanton.

Mr. Johnson said that the House was for farm relief, but that it is almost impossible to repeal legislation under which a large number of offices is created such as all of pending farm bills propose to do.

"If my amendment is adopted," said Mr. Johnson, "the law would be repealed automatically at the end of five years. On the other hand, if it 'works' and brings the relief that is thought it will it would be an easy matter to extend it. The Federal Reserve Banks have been limited. What is the reason for creating a lot of life jobs which may be an experiment?"

Although a limited number of members were on the floor at the time it was evidenced that the Johnson proposal is much in favor.

By Associated Press.  
New York, Feb. 8.—Nicholas Murray Butler, Republican president of Columbia University, expects that President Coolidge will decline to run for re-election next year. It is also his view that no man not frankly wet can be elected.

Speaking at a meeting of the Riverside Republican Club last night, Dr. Butler said:

"Although I have no knowledge that the President has ever referred to this matter in any way, either directly or indirectly, yet as a working Republican who is both a personal friend and a political supporter of President Coolidge, I am taking it for granted that when he thinks the right time has come, he will make public statement of his unwillingness to have his name considered in connection with the Republican presidential nomination of 1928. One of the president's strongest characteristics is his common sense, and common sense dictates this course."

"One of the deepest and most persistent convictions of the American people is that no president should have three terms in office. It is idle to define as to the length of either of the two terms which a president may have had. That president has served two terms who has twice taken the oath of office."

"That is not my personal view alone, but that of almost every important and experienced leader in any part of the country with whom I have recently spoken. Particularly in the Western and Northwestern States is there a great dread of the effect of the third term issue should it by any chance be raised."

Dr. Butler said prohibition, farm relief and foreign policy would be the issues of the campaign.

"The notion that either Governor Smith or Governor Ritchie should be the Democratic candidate can be defeated by a Republican who is not openly opposed to prohibition is quite groundless," the educator continued.

New York to Determine.  
For the first time since 1884, it seems likely that the presidential election will be settled in 1928 by the vote of the City of New York.

The Republican candidate is to be elected in 1928 he must carry the State of New York, and the State of New York can be carried only by a candidate who is so strong in the City of New York that he will keep the adverse majority down to 250,000 or 300,000 at most.

"Any candidate of the Anti-Saloon League or the Ku Klux Klan or any one who tries to dodge 'the prohibition issue,' Dr. Butler said, would find arrayed against him New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, Illinois, Wisconsin, Missouri, Montana, Nevada and Wyoming, with 212 electoral votes, and not improbably also California and Minnesota with 25 electoral votes."

While this pestiferous rain is mauling the face of the earth into a pulp, you find better gather up the remnants of harness you had left over from last year, and make up a list of the things you will need to make another crop of cotton for the speculators, more corn for the moonshiners, vegetables for the family and hay for the hens, horses and cows.

I have a large and affectionate line of COLLARS that I have had scientifically prepared, treated with Vio's Salve and other medical ingredients so they will not chafe or irritate the mule's shoulders. These COLLARS are stuffed with medicated straw, baled hay and curled hair. They are both sanitary and salubrious and horses and mules wearing these collars are free from colic, bots, fistula and wind galls. They will increase the horse power and reduce the feed bill.

Split and Tick, Straw  
Stuffed Collars .....\$1.25

Split and Tick, Baled  
Medicated Hay Stuffed Collars .....\$1.50

Curled Hair Stuffed  
Collars, with large abdomens .....\$2.50

Hame Straps to make the hames fit the above collars, each.....15c

Satisfaction given to every customer, regardless of his habits, religion or lodge affiliations.

T. C. Perry  
218 N. Commerce Street.

By Associated Press.  
Sault Ste. Marie, Mich., Feb. 10.—Five children of Mr. and Mrs. Harry Trimble were burned to death in their home at Rudyard, southwest of here, early today. Trimble was badly burned, while his wife jumped from an upper window with their sixth child, is suffering from exposure.

The fire, starting from an overheated stove downstairs was unnoted by the sleeping family upstairs, until it virtually had consumed the stairway.

Special to the Sun.  
Austin, Texas, Feb. 8.—A trip to Paris for the ninth annual convention of The American Legion in September from Indianapolis, the approximate center of population of the United States, can be made with comfort for \$300.00 it is estimated by Allen C. Ater, of Dallas, Department France Convention Officer of the state. This figure will allow \$42.50 for incidentals that the veteran may buy to make his trip more enjoyable.

While the cost of the Paris pilgrimage will vary as the taste and pocketbook of the individual Legionnaire there will probably be many of the veterans who will make the journey with a minimum expense record. Legionnaires traveling on the expense record of \$300 will live in luxury on the second trip over as compared to that first trip in wartime. Under the advantageous travel rates obtained by the Legion the veterans will spend less per day than the ordinary automobile summer tour in this country would cost.

The minimum expense record for the Paris convention as figured from the Hoosier state by the Department France Officer follows:

September 5 Leave Indianapolis.  
Round trip railway fare .....\$29.20  
Pullman to New York ..... 9.00  
Meals ..... 3.00  
Service on train ..... .50  
September 6 arrive New York, hotel, New York ..... 3.00  
Meals in New York ..... 2.50  
Sept. 7, sail on official ship, minimum rate ..... 145.80  
September 8, arrive Boston.  
September 8-18, at sea.  
Sept. 18, service on ship ..... 3.00  
Land at Cherbourg, fare to Paris, round trip ..... 4.50  
Identification certificate ..... 1.50  
Arrive Paris, transfer hotel, 1.00  
Sept. 19-25, Paris hotel, 7 nights ..... 10.00  
Meals in Paris, 7 days \$2.50 per day ..... 17.50  
Sept. 20, battlefield trip ..... 11.00  
Sept. 25, Paris to Cherbourg, transfer ..... 1.00  
September 25, embark.  
Oct. 3, dock at New York service on ship ..... 3.00  
Pullman to Indianapolis ..... 9.00  
Meals ..... 3.00  
Service on train ..... .50  
October 4, arrive Indianapolis.  
20 days, average cost per day, \$5.58.  
\$300 minimum price, \$42.50 allowed for incidentals.

The France Convention Committee of the American Legion at National Headquarters, Indianapolis, Indiana, has prepared for distribution a two-color steamship folder giving full travel plans for the Paris trip.

## LEGION TRIP TO PARIS CAN BE MADE WITH EASE FOR COST OF ONLY \$300

Special to the Sun.

The France Convention Committee of the American Legion at National Headquarters, Indianapolis, Indiana, has prepared for distribution a two-color steamship folder giving full travel plans for the Paris trip.

Confirmation of Dr. Anderson's appointment has already been made by the State Senate, and as soon as necessary arrangements can be completed he will come to Austin to assume active direction of the work of the state health department.

Special to the Sun.  
Austin, Texas, Feb. 9.—Dr. J. C. Anderson, of Plainview, has been named state health officer by Gov. Dan Moody. He succeeds Dr. H. O. Sappington, of Galveston, who held this office during the administration of Gov. Miriam A. Ferguson.

Dr. Anderson has been a practicing physician in Texas since 1887. Born on a farm in Bradley county, Ark., he grew to young manhood in that state, removing to Texas in 1881, and settling in Bell county. In 1885, he entered the Missouri Medical College, and upon graduation, he returned to Texas and engaged in the practice of his profession at Granger. In 1910, he changed his residence from Central Texas to Plainview, where he has continuously practiced medicine until called by Gov. Moody to the important post of state health officer.

At the time of his appointment, Dr. Anderson was also serving as county health officer of Hale county, a position that he had held for a number of years. He has traveled extensively for the purpose of studying hospital clinics both in the United States and Europe. In 1925, he visited England, Ireland, Scotland, Wales and France gathering information relative to the health work of these countries.

Confirmation of Dr. Anderson's appointment has already been made by the State Senate, and as soon as necessary arrangements can be completed he will come to Austin to assume active direction of the work of the state health department.

Dr. Anderson has been a practicing physician in Texas since 1887. Born on a farm in Bradley county, Ark., he grew to young manhood in that state, removing to Texas in 1881, and settling in Bell county. In 1885, he entered the Missouri Medical College, and upon graduation, he returned to Texas and engaged in the practice of his profession at Granger. In 1910, he changed his residence from Central Texas to Plainview, where he has continuously practiced medicine until called by Gov. Moody to the important post of state health officer.

At the time of his appointment, Dr. Anderson was also serving as county health officer of Hale county, a position that he had held for a number of years. He has traveled extensively for the purpose of studying hospital clinics both in the United States and Europe. In 1925, he visited England, Ireland, Scotland, Wales and France gathering information relative to the health work of these countries.

Confirmation of Dr. Anderson's appointment has already been made by the State Senate, and as soon as necessary arrangements can be completed he will come to Austin to assume active direction of the work of the state health department.

Special to the Sun.  
Austin, Texas, Feb. 9.—Dr. J. C. Anderson, of Plainview, has been named state health officer by Gov. Dan Moody. He succeeds Dr. H. O. Sappington, of Galveston, who held this office during the administration of Gov. Miriam A. Ferguson.
